Rules concerning Husbandry.

When you would plant or graft, consider where the wind bloweth; if it be in the South it is very good for that purpose, but if it be in the North or East it is not good.

It is good to plant or graft generally the Moon increasing in these signs, Taurus or Aquarius in the beginning of the Spring or latter end of Harvest.

Plant trees for continuance, when the Moon is in Taurus, Leo or Aquarius.

Cut timber to have it sound, in December or January, in the wane of the Moon in Aquarius or Pisces.

Prune trees and pull off the moss in the month of January.

Plash hedges, and low trees for fuel that the heads may the sooner grow again, when the Moon is in Aries or Libra, and in her increase.

Set young quick-sets, from September to March.

Remove young trees in the last quarter of the Moon, when she is in Aries, Libra, Scorpio: & in these months, September, November, February.

Set vines in February, March, or September specially the Moon in Aries, Libra, Scorpio, in her increase.

Set Rose-trees in the midst of February, when the Moon increaseth.

Cut or prune trees in March or April, the Moon in Taurus, Virgo, or Capricorn.

Gather fruit, as Apples, Pears, and the like, at the full of the Moon, in the afternoon the weather being fair and dry.

Cut down Hay presently after the full of the Moon.

Dung ground to prevent the growing of weeds, the Moon decreasing.

Sow Carpet-seeds about the end of February or the beginning of March, the Moon increasing.

Sow Onions and Leeks in February or March at the wane of the Moon.

Set Cucumbers and Melon-seeds not above one inch in depth, from the first of April to the 30 in the increase of the Moon.
